Shawn,

It is very thoughtful that you took the time to acknowledge the field crew's role. Everyone had difficult roles and I think your experience and perspective having once been "boots on the ground" helped the project enormously. I also think you did the best that anyone could have done to advocate the regional interests, and I know that, that feeling is shared by the rest of the field crew.

thank much,
Rich

Subject: Dimock

I just wanted to send you quick note to thank you for all your hard work in responding to the Dimock investigation. You were the ones on the ground day-to-day, and I greatly appreciate it.

Thank you - Shawn
